**W poczekalni u lekarza duży dziś panuje ruch,**

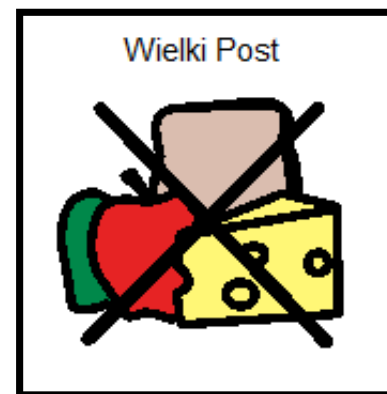

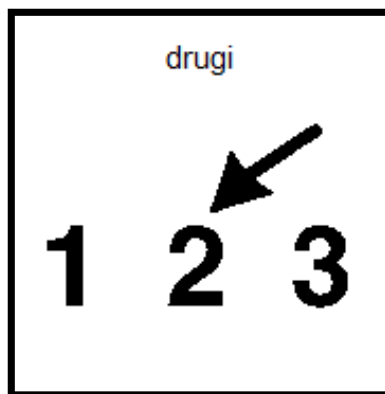

**Kuba wszedł skulony, pewnie go rozboleł brzuch.**

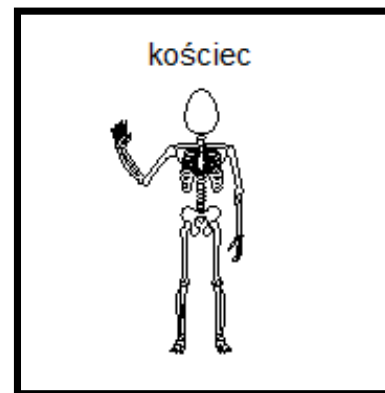

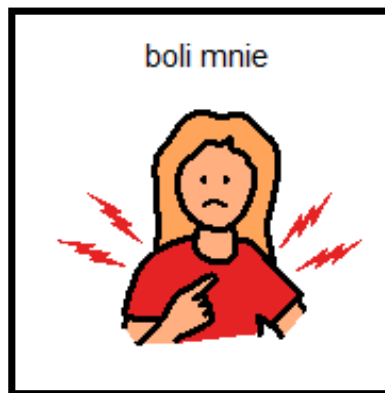

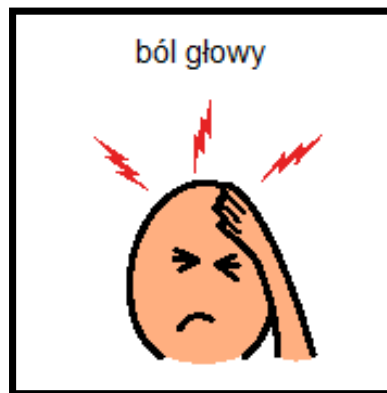

**Za nim Zuza, co drugi dzień pości,**

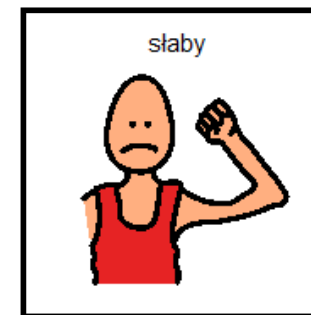

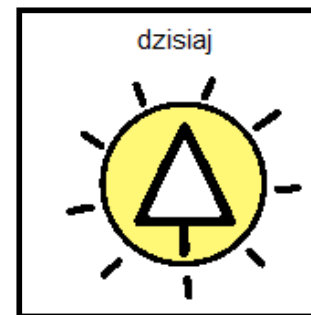

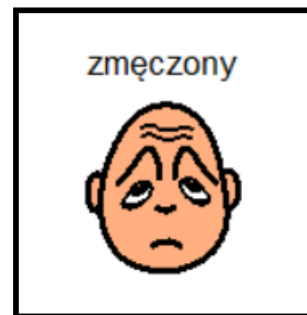

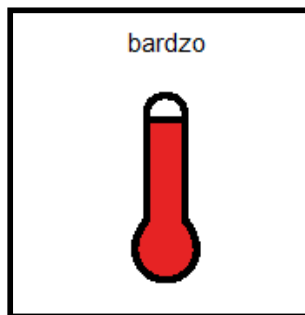

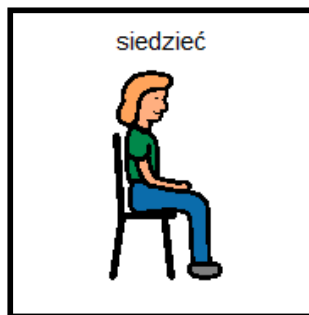

**boli ją głowa i łamią kości.**

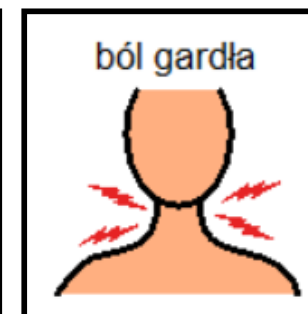

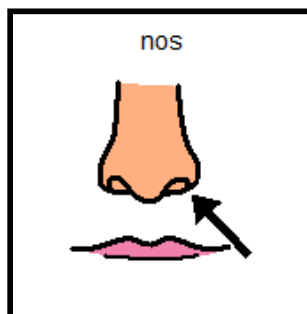

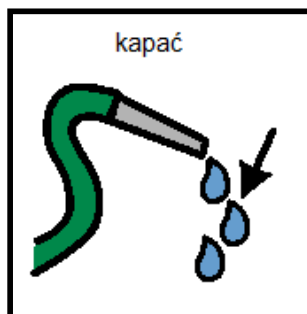

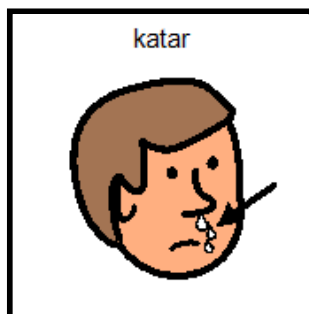

**Ola siedzi bardzo blada,  
zwykle szybka, dzisiaj słaba.**

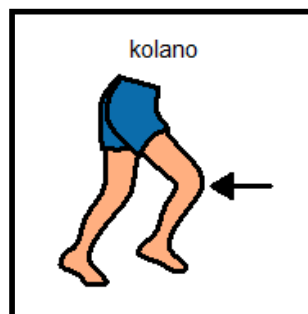

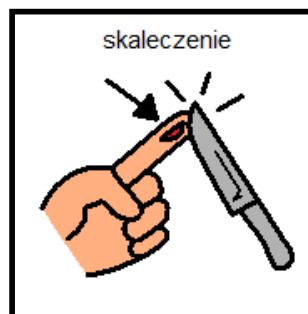

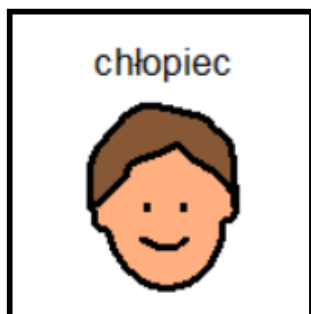

**Katar kapie z nosa Tosi  
gardło piecze, bez litości.**

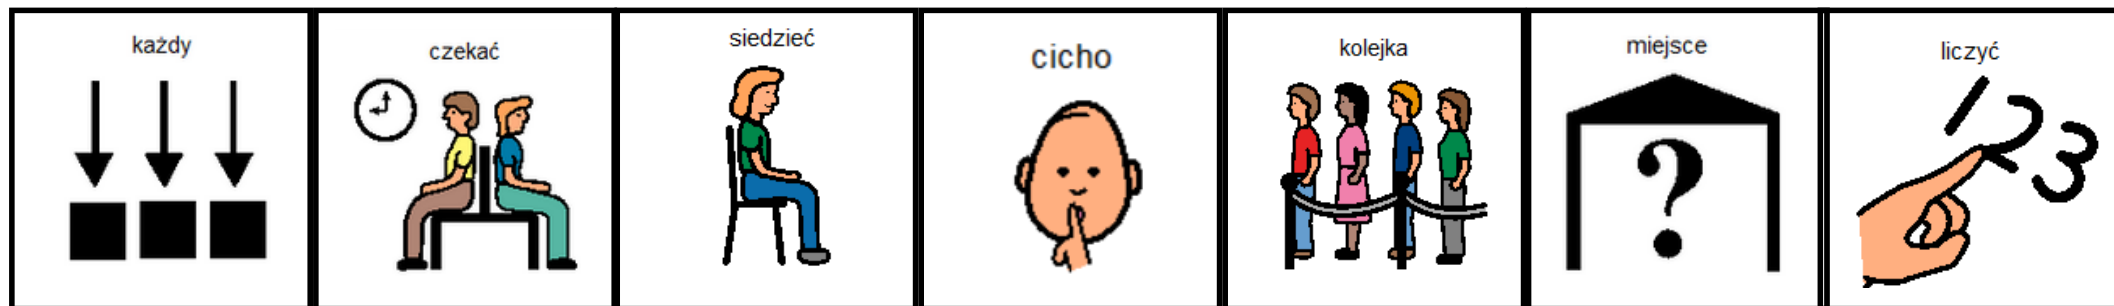

**Jest też Tadzio z rozbitym kolanem,  
co chowa się za swoją mamę.**

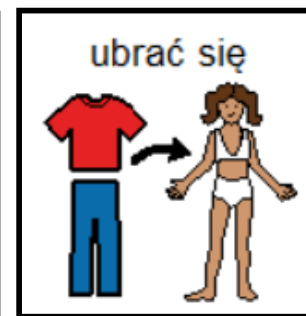

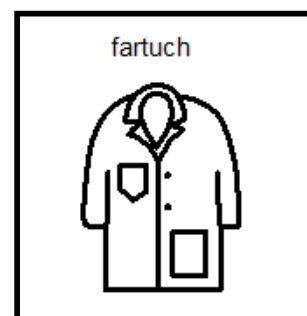

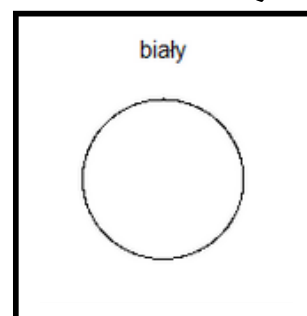

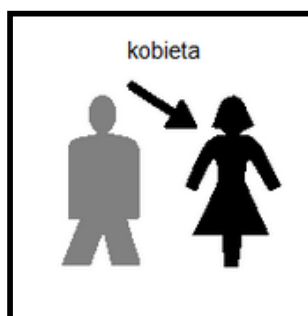

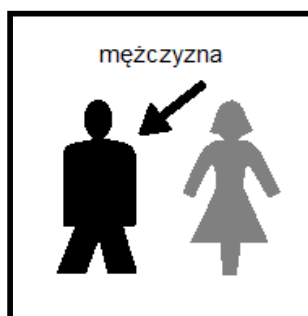

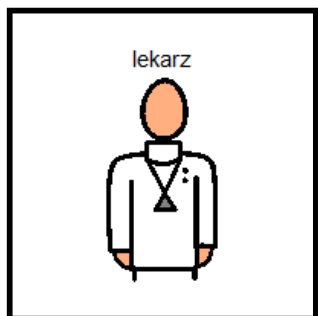

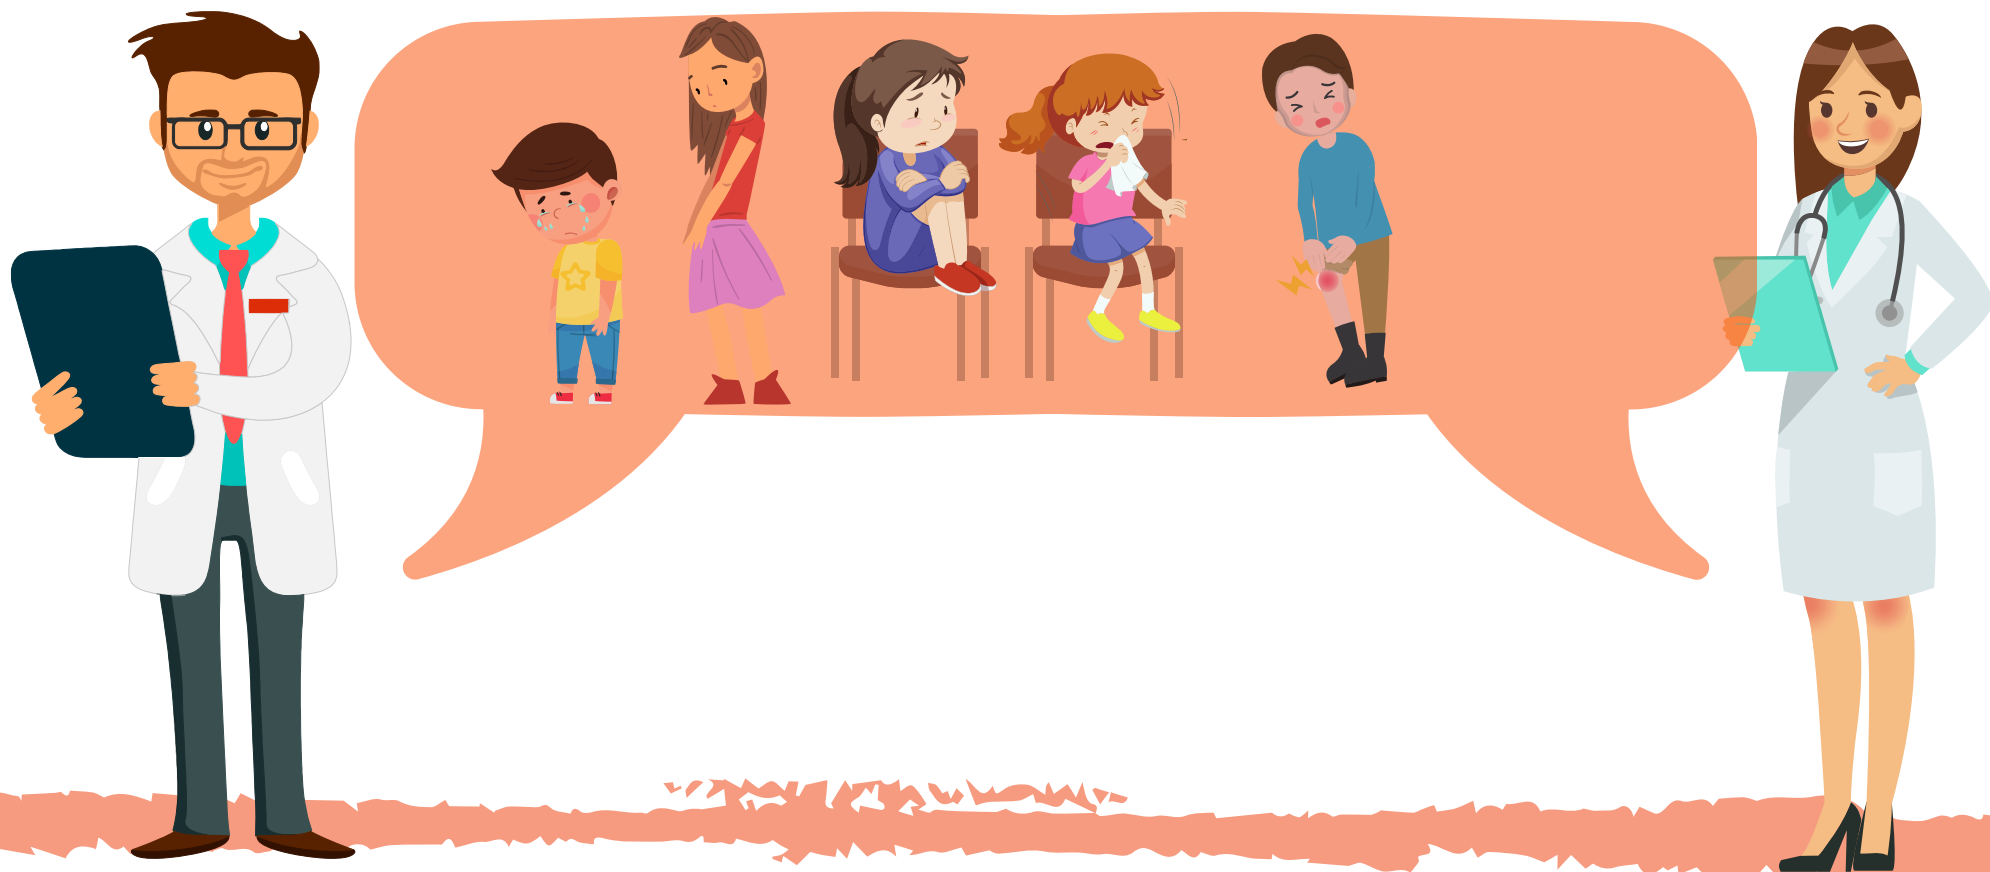

**Każdy czeka, siedzi w ciszy  
i w kolejce miejsce liczy.**

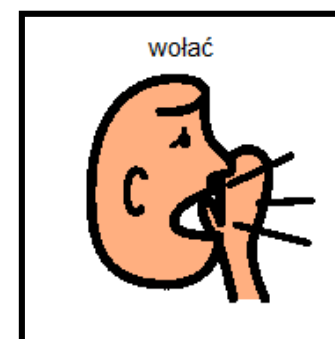

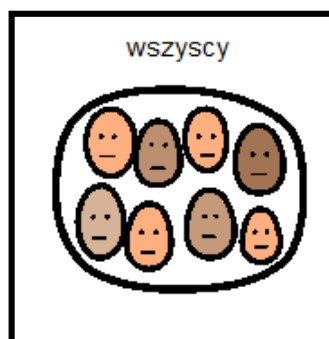

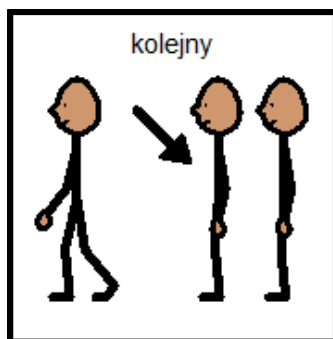

Oto lekarz: Pan lub Pani,  
w biały fartuch są ubrani,

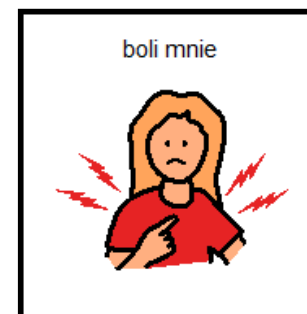

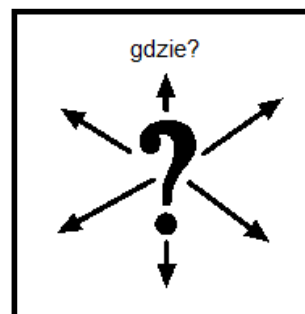

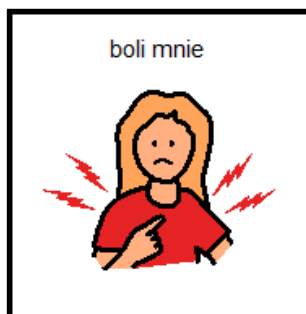

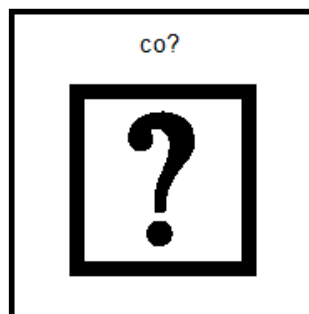

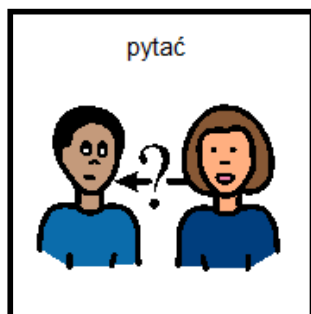

po kolei wszystkich woła,

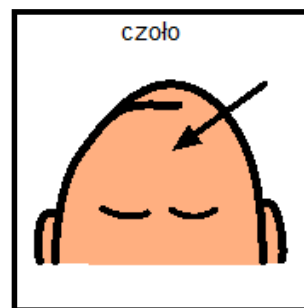

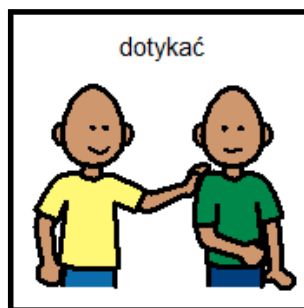

**pyta:**  
**co boli? gdzie boli?**

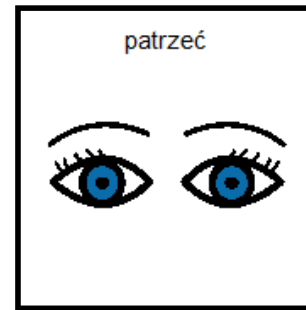

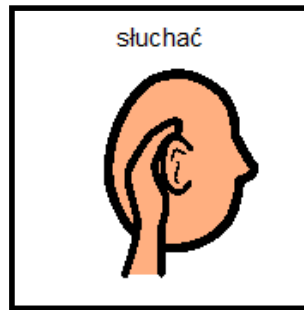

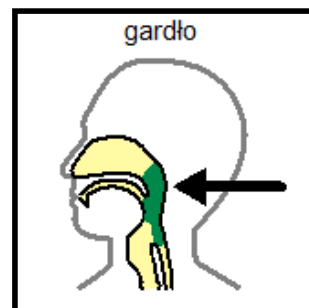

**Dotyka czoła.**

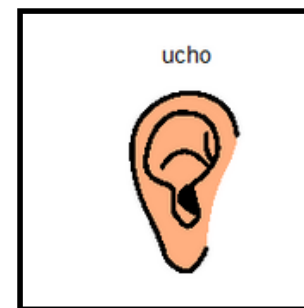

# Słucha i patrzy

w gardło,

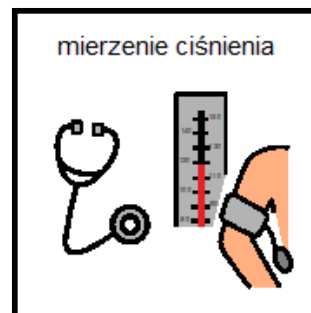

do ucha,

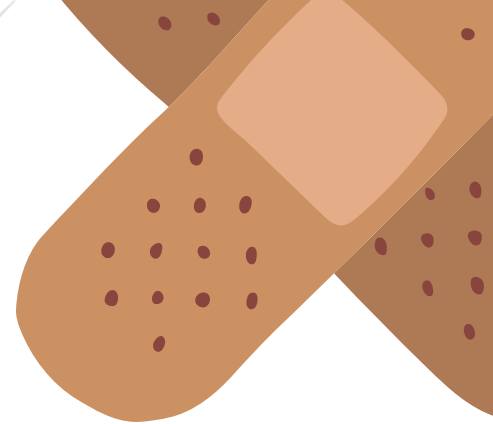

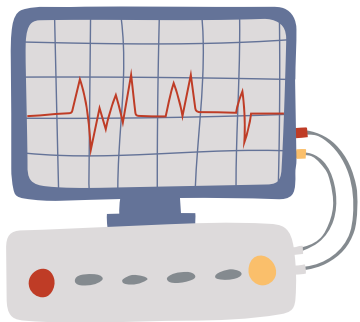

**puls mierzy, ciśnienie bada**

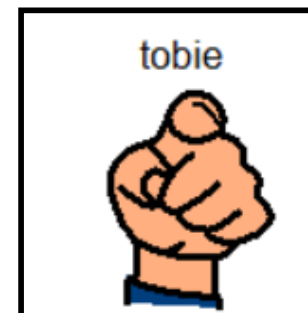

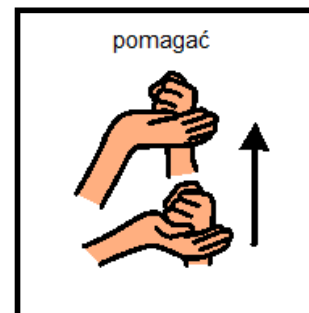

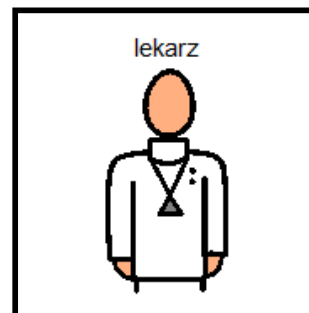

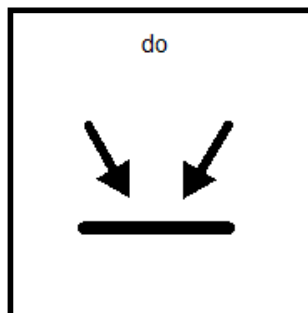

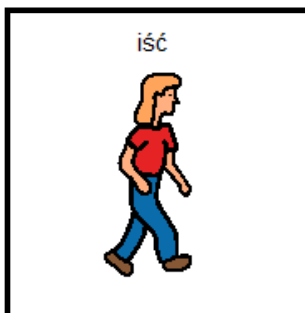

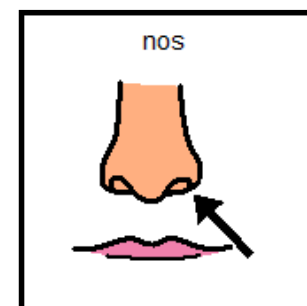

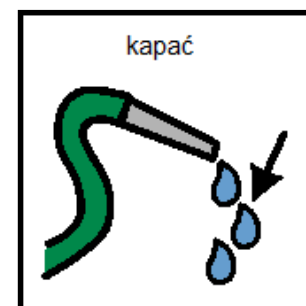

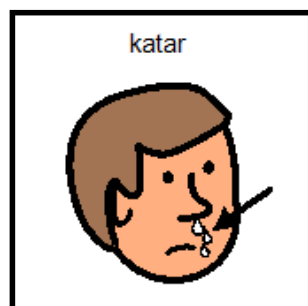

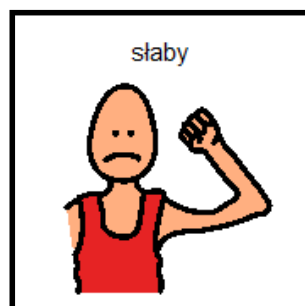

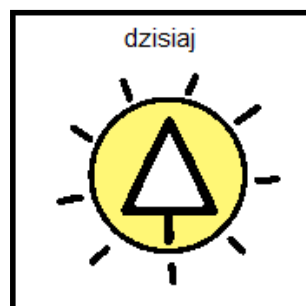

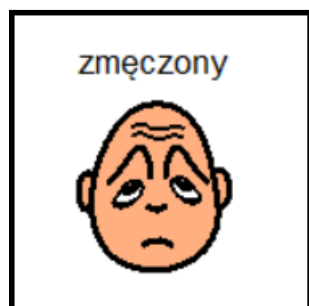

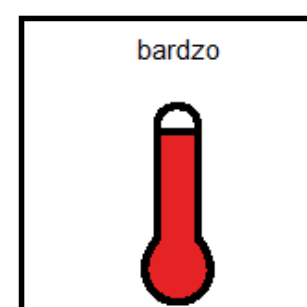

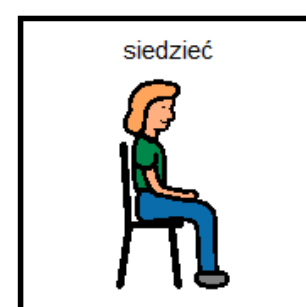

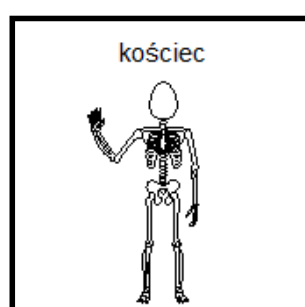

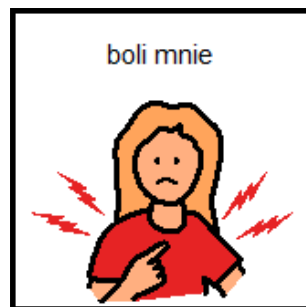

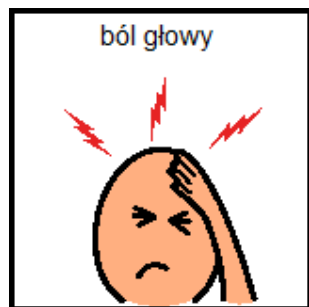

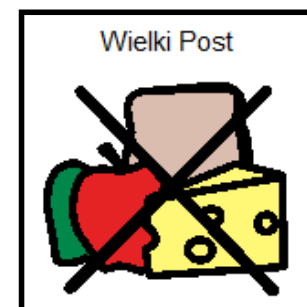

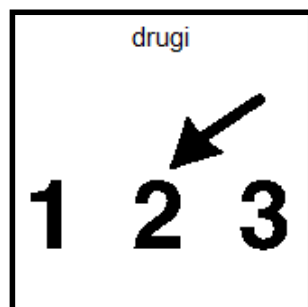

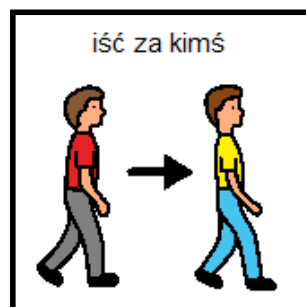

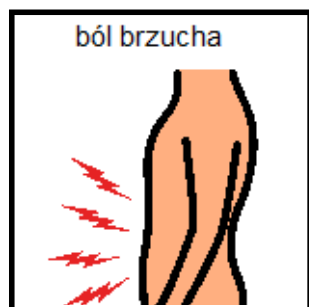

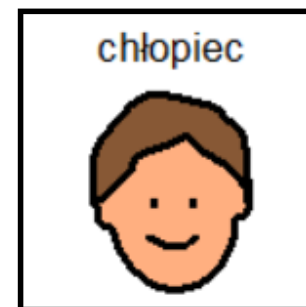

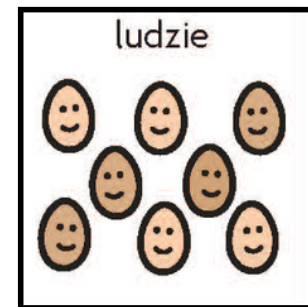

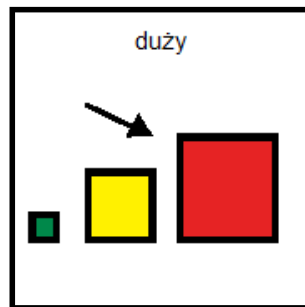

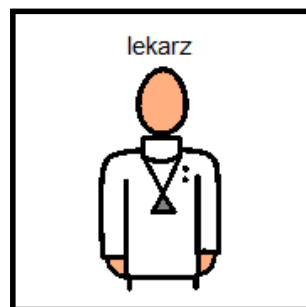

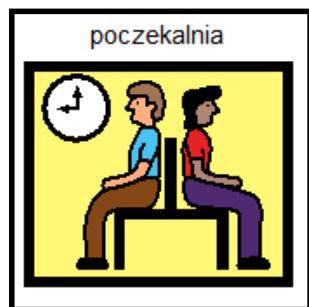

**i wreszcie na koniec dobra rada.**

Gdy źle się poczujesz,  
co, zdarzyć się może,  
idź do lekarza, on Ci pomoże.
